Sardar Patel University

FYBCA (1st Sem) Examination – Nov-2025

US01MABCA01 || Programming Fundamentals Using C

Date: 11/11/2025, Tuesday

Time: 10:00 am to 12:30 pm

Total Marks:50

Q.1 Multiple Choice Questions.

[10]

- 1 C language is _____ language.
a) High level b) Machine c) Assembly language d) Low level language
- 2 _____ is a step by step approach to solve any problem.
a) Programming Language b) Algorithm c) Process d) Compiler
- 3 _____ format specifier is used for int data type.
a) %f b) %c c) %d d) %e
- 4 The value that can be changed during program execution is known as _____.
a) Variable b) Constant c) Operator d) None of these
- 5 Do-while loop is also known as _____ loop.
a) Entry controlled b) Exit controlled c) a and b d) None
- 6 _____ statement terminates the execution of loop.
a) continue b) switch c) break d) stop
- 7 In Array subscript begins with _____.
a) Zero b) One c) Three d) None of these.
- 8 In two dimensional arrays the first subscript specifies _____ size.
a) Row b) Column c) Vector d) All of above
- 9 If $x = 'z' - 1$; then x will be _____.
a) $x = 121$ b) $x = 125$ c) $x = 112$ d) None of these
- 10 gets () function is available in _____ header file.
a) <stdio.h> b) <conio.h> c) <math.h> d) All of above

Q.2 What is Computer Language? Explain Machine level , Assembly and High level language. [10]

OR

Q.2 What is flow chart? List and explain all symbols used to draw a flow chart.What is Computer Language? [10]

Q.3 Draw and explain basic structure of C program with one suitable program. **[10]**

OR

Q.3 What is an operator? List all and explain any four operators with example. **[10]**

Q.4 List and explain decision making statements with syntax and example. **[10]**

OR

Q.4 What is an Array? Explain declaration and initialization of 1-D array with syntax and example. **[10]**

Q.5 List all and explain any four functions of <string.h> header files with syntax and example. **[10]**

OR

Q.5 List and explain functions of <math.h> header files with syntax and example **[10]**
