SARDAR PATEL UNIVERSITY
BCA SEM : I EXAMINATIONS 2024

US01BCA51 PROGRAMMING FUNDAMENTAL USING C

DATE : 4/3/2024, Monday
TIME : 10.00 AM TO 01.00 PM

TOTAL MARKS : 70

Q.1 Multiple Choice Questions.

[10]

1. _____ is the standard decision symbol for a flowchart
a. circle b. diamond c. square d. triangle
2. _____ language is machine independent.
a. High-level b. Machine-level c. Assembly d. Low-level
3. The translator program used in assembly language is called _____.
a. assembler b. compiler c. translator d. interpreter
4. The ternary operator is known as _____ operator.
a. arithmetic b. ?: c. dot d. relational
5. _____ of the following backslash character constant is used for new line?
a. \n b. \h c. \t d. \ht
6. The switch expression can be an _____ type.
a. integer b. float c. double d. none of these
7. _____ loop execute at lease ones.
a. while b. do-while c. if d. for
8. In array subscript can begin with number _____.
a. 0 b. 1 c. 2 d. 3
9. _____ function is used to find length of string.
a. scanf() b. strlen() c. strrev() d. strcpy()
10. When we declare string _____ data type is use.
a. int b. char c. float d. string

Q.2 Short Questions : (Any 10)

[20]

1. Define editor. Also gives 3 examples of well known editors.
2. What is translator? list all translator available in C.
3. Write an algorithm to find sum of two numbers.
4. Solve the equation : $4/2 + 4/2$
5. Explain simple if statement with example.
6. Discuss scanf() statement.
7. Explain gets() with example.
8. Discuss while v/s do while
9. What is array? List types of array in c programming.
10. What is string? List out the major operation perform on string.
11. Write the syntax for declaring string in C also gives one example.
12. Explain getch() function with example.

- Q.3 [A]** What is flow chart? List and explain symbols used to draw a flowchart. [05]
[B] Write a note on : machine language [05]

OR

- [A]** What is algorithm? Explain rules for writing an algorithm in detail. [05]
[B] Write a note on : HLL [05]

- Q.4 [A]** Draw and explain structure of C program. [05]
[B] Explain ternary operator with syntax and example. [05]

OR

- [A]** What is variable? Discuss rules for declare a valid variable in C with example. [05]
[B] List all operators available in C and explain any two with example. [05]

- Q.5 [A]** How user can initialize an array explain with syntax and example. [05]
[B] Explain for loop with syntax and example. [05]

OR

- [A]** How user can declare an array explain with syntax and example. [05]
[B] Explain While loop with syntax and example. [05]

- Q.6 [A]** Explain the following functions with syntax and example. [10]
1. `strrev()` 2. `strcpy()` 3. `islower()` 4. `getchar()`

OR

- [A]** Explain the following functions with syntax and example. [10]
1. `strlen()` 2. `strcmp()` 3. `isupper()` 4. `putchar()`
