

SEAT No. _____

No. of Printed Pages: 02

SARDAR PATEL UNIVERSITY

[8]

BCA Semester-I (CBCS) (Reg. & NC) Examination – January 2021

US01CBCA21 – Programming Fundamental Using C

Thursday, 28th January 2021

Time: 10.00am to 12.00pm

Max. Marks: 70

Note: Figure indicates at right is maximum marks for question.

Q-1 Select an appropriate option for the following statements.

[10]

1. _____ is a step by step approach to solve any problem
[a] Process [b] Programming language
[c] Algorithm [d] Compiler
2. What is the standard decision symbol for a flowchart?
[a] Circle [b] Lozenge
[c] Diamond [d] Square
3. C language is _____
[a] High Level Language [b] Machine Level Language
[c] Assembly Language [d] Low Level Language
4. From the following which section consists of Header files?
[a] Main [b] Definition
[c] Documentation [d] Link section
5. Which of the following section is compulsory in C program?
[a] main() [b] Definition
[c] Documentation [d] None of these
6. The combination of ? and : is known as _____ operator.
[a] Ternary [b] Arithmetic
[c] Dot [d] Relational
7. _____ loop execute at least once.
[a] while loop [b] do..while loop
[c] for loop [d] if
8. Individual value in array is called _____
[a] Elements [b] Numbers
[c] Index [d] Element and Number
9. A group of character is known as _____
[a] String [b] Array
[c] Function [d] All of above
10. gets () function is available in _____ header file.
[a] <stdio.h> [b] <conio.h>
[c] <math.h> [d] All of above

Q-2 Do as Directed.

[08]

Fill in the blanks.

1. _____ is a pictorial representation of Algorithms.
2. _____ format specifier used for integer data type.
3. In Array subscript can begin with number _____.
4. _____ function is use for reverse the string.

State whether the below given statement is true or false.

5. Machine level language and Assembly level language, both are low level languages.
6. `tot_sum` is a valid variable name.
7. An array can be initialize either at compile time or at run time.
8. If both the string are same then the comparison value is zero.

Q-3 Answer the Following Questions in brief (Attempt any Ten)

[20]

1. Write advantages and disadvantages of an Algorithms.
2. List symbols used to draw a flowchart and explain any one of them.
3. What is Translator? List all Translators.
4. Draw the basic structure of 'C' Programming.
5. Explain `printf()` with example.
6. Write a rule to declare a variable name.
7. Explain break statement with example.
8. Write the syntax of run time initialization of 1-D array in C with example.
9. Explain do..while loop with example.
10. What is string? List out the operation perform on the string.
11. List out any four mathematical functions.
12. Explain the `clrscr()` function.

Q-4 Write answer in detail for the following questions (Attempt any Four)

[32]

1. What is Flowchart? Explain rules to draw a flowchart. Also explain symbols used to draw flowchart.
2. Explain Machine level language and Assembly level language
3. Explain basic datatypes used in 'C' Language.
4. What do you mean by operator? List all operators available in 'C'. Explain any Three of them.
5. Explain decision making statements with syntax and example.
6. What is an Array? Explain declaration and initialization of 1-D array with syntax and example.
7. Explain following function with syntax and example.
a) `strlen()` b) `strcat()` c) `strcpy()` d) `strrev()`
8. List and explain functions of `<ctype.h>` header files with syntax and example.
