SARDAR PATEL UNIVERSITY**BCA SEMESTER-I (NC – Old Course) Examination – November 2024****[US01CBCA51] : Programming Fundamentals using C****20th November 2024 (Wednesday)****Time: 2.00pm to 5.00pm****Total Marks: 70****Note: Figure indicates at right, is maximum marks for each question.****Q -1 Select an appropriate option for the following statements.****[10]**

1. Mnemonic a memory trick is used in which of the following language?
[a] Machine Language [b] Assembly Language
[c] High level language [d] None of these
2. C language is _____
[a] Machine Language [b] Assembly Language
[c] High-level language [d] Low-level Language
3. _____ is a pictorial representation of an algorithm.
[a] Data Diagram [b] Flow Chart
[c] Pie Chart [d] Program
4. The value can be changed during program execution is known as _____.
[a] Variable [b] Constant
[c] Operator [d] None of these
5. The Switch expression can be an _____ type.
[a] Integer [b] Float
[c] Double [d] None of these
6. _____ format specifier used for floating data type.
[a] %d [b] %f
[c] %c [d] %e
7. Do-while loop is also known as _____ loop
[a] Entry level [b] Exit level
[c] Both (a) and (b) [d] None of these
8. For declaring one- dimensional array _____ subscript is use.
[a] One [b] Two
[c] Three [d] Four
9. A group of character is known as _____.
[a] String [b] Array
[c] Function [d] None of these
10. _____ function is use to writing the string.
[a] scanf() [b] printf()
[c] strrev() [d] strlen()

Q-2 Answer the Following Questions in brief (Attempt any Ten)

[20]

1. What is an Algorithm? List advantages and disadvantages of Algorithm.
2. What is editor? Give name of popular editors.
3. List language of all generation.
4. Explain printf() statement with example
5. Write a rules to declare a variable in C.
6. Briefly explain history of C
7. Give difference between break and continue.
8. Explain do-while statement with example.
9. What is an array? Write syntax to declare 1-D array in C with example.
10. What is String? List operations perform on String.
11. Explain strlen() with syntax and example.
12. Write a syntax to declare a String and explain with suitable example.

Q-3 What is Flowchart? Explain Rules to draw flowchart. Also explain symbols used to draw flowchart.

[10]

OR

Q-3 What is Translator? Explain Compiler, Interpreter and Assembler.

[10]

Q-4

[A] Explain Arithmetic and Relational operators of C with example.

[05]

[B] Write note on Basic Datatypes of C.

[05]

OR

Q-4

[A] Explain Conditional and logical operators of C with example.

[05]

[B] Draw and briefly explain Structure of C program.

[05]

Q-5

[A] Discuss difference between while loop and do-while loop.

[05]

[B] Explain for loop with syntax and appropriate example.

[05]

OR

Q-5

[A] Define 2-D array? Explain the declaration and initialization of 2-D array with syntax and example.

[05]

[B] Explain switch case with syntax and example.

[05]

Q-6

[A] Explain strcpy() and strcat() function with syntax and example.

[05]

[B] Explain gets() and puts() with syntax and suitable example.

[05]

OR

Q-6

[A] Explain sqrt() and pow() function with syntax and example.

[05]

[B] Explain islower() and isupper() with syntax and example.

[05]
