

TIME: 10:00 A.M TO 12:00 P.M.

DATE: 10/09/2020(Thursday)

NOTE: Right hand figure indicates the marks of each question.

TOTAL MARKS: [70]

Q – 1 Select an appropriate option for following multiple choice questions. [10]

- 1) _____ System is an example of man-machine system.
A. Solar B. Information
C. Business D. Defense
- 2) _____ is defined as the result of an operation.
A. Goal B. Input
C. Process D. Output
- 3) The example of conceptual system is _____.
A. Philosophy B. solar
C. water D. computer
- 4) SSADM does not include _____.
A. System Survey B. Structured Design
C. Maintenance D. System Analysis
- 5) In _____ errors or bugs are rectified.
A. Adaptive B. Corrective
C. Perfective D. None
- 6) _____ Documentation describes the overall system design.
A. User Interface B. Program
C. Training D. Design
- 7) The processed data with specific purpose are called _____.
A. Data B. Information
C. Picture D. System
- 8) Arranging the data into some desired sequence is known as _____.
A. Data Recording B. Verification
C. Sorting D. Data Transmission
- 9) DFD stands for _____.
A. Database Flow Diagram B. Data Flow Diagram
C. Data Flow Design D. None of these
- 10) Generally Context level DFD contain _____ process.
A. Four B. Three
C. Two D. One

Q – 2 Fill in the blanks and True - False. [08]

- 1) Defense system is an example of Natural system. (True/ False)
- 2) The last step of SDLC is _____.
- 3) Test plan is considered as an output of the Structure Analysis. (True/ False)
- 4) Feasibility Document is the output of _____.
- 5) Data Capture is the process to detect error. (True/ False)
- 6) _____ is useful for gathering numerical data.
- 7) Data Flow names describes the data they contain in Logical DFDs. (True/ False)
- 8) _____ Tool automate the preparation of computer software.

P.T.O.

Q – 3 Give answer in short. (ANY TEN)

[20]

- 1) Define System.
- 2) List types of system.
- 3) Differentiate between open system and closed system.
- 4) Write any four steps of SSADM.
- 5) List any two Tangible Benefits.
- 6) Explain the term Maintenance in brief.
- 7) Define Data capture and Data entry.
- 8) What is Data Transmission?
- 9) Explain Sorting.
- 10) Define DFD and List the symbols used in it.
- 11) Draw context level diagram for railway reservation system.
- 12) What do you mean by CASE Tools?

Q – 4 Give answer in detail. (ANY FOUR)

[32]

- 1) Discuss the characteristics of System in detail.
- 2) What is SDLC? List and explain the steps in 2 or 3 lines.
- 3) List different stages of SSADM. Explain any two.
- 4) What are the advantages of SSADM?
- 5) Explain objectives of output and input design.
- 6) Explain design principles and available types of output.
- 7) Explain DFD, Symbols used in DFDs and Rules to be followed in DFD construction.
- 8) Draw context, zero and first level diagram for College Payroll System.
