

[47]

SARDAR PATEL UNIVERSITY
External Examination
SYBCA Semester-III
System Analysis and Design (US03CBCA27)

Date: 13/12/2020

Time: 10:00 AM – 1:00 PM

Marks: 70

Note: All the questions are compulsory. Give examples where ever required.

Q-1 Choose the most appropriate answer from the given options. Please write option label A, B, C or D clearly against question number. [10]

- (1) The activity that makes possible the transformation of input to output is called _____.
A. output B. Goal C. Input D. Process
- (2) The _____ System is an example of Natural system.
A. Solar B. Information C. Business D. Defense
- (3) Economic forecasting is an example of _____ system.
A. Probabilistic B. Deterministic C. Machine D. closed
- (4) The processed data with specific purpose are called _____.
A. Data B. Information C. Fact D. System
- (5) From the following, which method is most suitable to get feedback in post implementation audit?
A. Observation B. Questionnaire C. Record Inspection D. None of these
- (6) Increased value in sales and net income is one of the examples of _____.
A. One Time Cost B. Recurring Cost C. Tangible Benefits D. Intangible Benefits
- (7) Salary of personnel is one of the example of _____.
A. One Time Cost B. Recurring Cost C. Tangible Benefits D. Intangible Benefits
- (8) To conduct a detailed feasibility study, firstly an expert committee called _____ Committee is appointed
A. Super B. Evaluation C. Steering D. None of these
- (9) Data Flow Diagram is also known as _____ Diagram.
A. Bubble B. Bullet C. List D. Node
- (10) From the following, _____ useful when totally novel system is proposed.
A. Prototype B. Flow Chart C. DFDs D. Procedure

Q-2 Attempt ANY TEN questions.

[20]

- (A) Draw the general model of the System.
(B) Differentiate between Open System and Closed System.
(C) List types of System.
(D) Discuss need of feasibility study.
(E) List tangible and intangible benefits.

- (F) Explain in brief: Walkthrough.
 (G) List types of Output.
 (H) What is data capturing?
 (I) List types of Output Media.
 (J) List the situations when Prototype is useful.
 (K) Explain Context Level DFD with suitable example.
 (L) What are the merits and demerits of Prototype?
- Q-3** Define: System Analyst. Discuss the Characteristics of System Analyst and the Role of System Analyst in detail. [10]
OR
Q-3 Define the terms: System, System Analysis, and System Design. Discuss the Characteristics of System in detail. [10]
- Q-4** Write a short note on SDLC. [10]
OR
Q-4 What is SSADM? Discuss need for Structured Analysis and Design. Explain any two SSADM methodologies in brief. [10]
- Q-5** Discuss Fact Gathering techniques in brief. [10]
OR
Q-5 Define the term Data Validation. Explain different types of Field Checks Validation and Transaction Checks Validations with suitable example. [10]
- Q-6** What do you mean by Data Flow Diagram? Discuss Symbols used in DFDs and explain thumb rules used while constructing DFDs. [10]
OR
Q-6 What is Prototype? Draw Prototype Development Model and discuss steps of Prototype Process in detail. [10]
