

[106]

SARDAR PATEL UNIVERSITY
BCA (Semester-III) Examination – October 2025
[US03BCA21]: Database Management System - II

Date: 04/10/2025 (Saturday)**Time: 2.00pm to 5.00pm****Total Marks: 70****Note: Figure indicates at right is maximum marks for question.****Q -1 Select an appropriate option for the following statements.****[10]**

1. Which of the following are consequences of poor database design?
[a] Poor Design Planning [b] Lack of Documentation
[c] One table to hold all domain values [d] All the above
2. A relation is said to be in 1NF if
[a] There is no duplication of data [b] There are no composite attributes in the relation
[c] There are only a few composite attributes [d] All attributes are of uniform type
3. Which of the following is not an anomaly?
[a] Index [b] Insert
[c] Update [d] Delete
4. In PL/SQL, Code blocks start with a _____ Section.
[a] Begin [b] Exception
[c] Declare [d] main
5. The _____ attributes is used to declare a variable based on definition of columns in a table.
[a] %rowtype [b] %type
[c] %row [d] rowid
6. In which control structure, no need to declare a memory variable?
[a] If [b] While
[c] For [d] None of these
7. _____ can be declared by user for the queries that return more than one row
[a] Implicit cursor [b] Explicit cursor
[c] User defined procedures [d] User defined functions
8. Data stored in a cursor is known as _____.
[a] Implicit cursor [b] Active data set
[c] Current data set [d] None of these
9. A _____ can must have return statement.
[a] Function [b] Procedure
[c] Trigger [d] None of these
10. A _____ is an oracle object, which holds other objects in it.
[a] trigger [b] procedure
[c] function [d] package

Q-2 Give brief answer for the following questions. (Attempt any Ten) [20]

1. Write goals of normalization.
2. What are the consequences of poor database design.
3. Compare 3NF with BCNF.
4. List basic data types of PL/SQL.
5. Write syntax of IF-THEN-ELSE statement.
6. Define: Variable and Constant
7. List attributes of Explicit cursor
8. Compare implicit cursor with explicit cursor.
9. Explain OPEN statement of explicit cursor.
10. List parameter of procedure.
11. Write a general form of Trigger.
12. List part of PL/SQL package.

Q-3 Describe normalization and the procedure for converting the first, second, and third normal forms using an example. [10]

OR

Q-3 Discuss Functional and Transitive dependencies with suitable example [10]

Q-4

[A] Explain case statement with syntax and example [05]

[B] Draw and discuss PL/SQL block structure in detail. [05]

OR

Q-4

[A] Explain While Loop with syntax and example. [05]

[B] Explain Go to statement (Sequential Control) with syntax and example. [05]

Q-5

[A] Explain raise_application_error with syntax and example. [05]

[B] Explain Explicit cursor with its attributes through example. [05]

OR

Q-5

[A] Explain Implicit cursor with its attributes through example. [05]

[B] What is exception? Write advantages of exception handling in PL/SQL. [05]

Q-6

[A] Explain advantage of PL/SQL Package. [05]

[B] Explain Function with syntax and example. [05]

OR

Q-6

[A] Explain Procedure? Discuss with syntax and example. [05]

[B] Explain PL/SQL package with syntax and example. [05]
