SARDAR PATEL UNIVERSITY

SYBCA 3rd SEMESTER CBCS Examination-2024

US03CBCA53 || Database Management System - II

Date: 15/2/2024, Thursday

Time: 02:00pm to 05:00pm

Maximum Marks: 70

Q.1

Answer the following questions.

[10]

- 1 Which of the following is not an anomaly?
(a) INSERT (b) INDEX (c) UPDATE (d) DELETE
- 2 Which normal form identifies transitive dependencies?
(a) 1-NF (b) 2-NF (c) 3-NF (d) None of these
- 3 Which of the following are consequences of poor database design?
(a) Poor design/planning (b) Lack of documentation
(c) One table to hold all domain values (d) All of them
- 4 The _____ attributes is used to declare a variable based on definition of columns in a table.
(a) %type (b) % rowtype (c) %row (d) rowed
- 5 A _____ marks a sequence of statements that has to be repeated.
(a) End (b) Loop (c) Continue (d) goto
- 6 In PL/SQL, Code blocks start with a _____ Section.
(a) Main (b) Begin (c) Declaration (d) Exception
- 7 _____ can be declared by user for the queries that return more than one row.
(a) User defined Procedures (b) User defined Functions (c) Implicit Cursor (d) Explicit Cursor
- 8 _____ exception is raised when the data type or data size is invalid.
(a) value_error (b) program_error (c) type_invalid (d) none of these
- 9 In trigger to specify correlation names, key word is used.
(a) for each row (b) referencing (c) when (d) none of these
- 10 All packages can be recompiled using _____.
(a) dbms_compile (b) dbms_execute (c) dbms_utility (d) none of these

Q.2

Explain following in brief. (Attempt any Ten)

[20]

- 1 Differentiate between DBMS and RDBMS
- 2 List out the consequences of poor database design.
- 3 What is the need of normalization?
- 4 Write Advantages of PL/SQL.
- 5 Explain Case statement in brief.
- 6 Define: Variable and Constant
- 7 Explain in brief: SQLCODE / SQLERRM
- 8 Explain SELECT...INTO statement available in PL/SQL.
- 9 Differentiate between implicit cursor and explicit cursors.
- 10 Explain row level and statement level trigger.
- 11 Different between stored Procedure and stored Function.
- 12 What is Package? List components of package.

[P.T.O.]

- Q-3 (A) List and explain any five codd rules. [05]
 (B) Draw an E-R diagram of Library System. [05]

OR

- Q-3 (A) Explain 1st and 2nd Normal Form of Normalization Process with example. [05]
 (B) List and explain types of relationships between entities. [05]

- Q-4 (A) Explain PL/SQL block structure with example. [05]
 (B) Explain basic data types in detail. [05]

OR

- Q-4 (A) Explain Sequential control with syntax and example. [05]
 (B) Explain Iterative control with syntax and example. [05]

- Q-5 (A) List and explain implicit cursor attributed with suitable example. [05]
 (B) Explain raise_application_error with syntax and example. [05]

OR

- Q-5 (A) What is exception? Write advantages of exception handling in PL/SQL. [05]
 (B) Explain following statements for explicit cursors : (a) open (b) close [05]

- Q-6 What is trigger? List various types of trigger And explain how to create trigger with appropriate syntax and example. [10]

OR

- Q-6 What is procedure and functions? Explain procedure and function with syntax and suitable example. [10]
