SARDAR PATEL UNIVERSITY
BCA (Semester-III) Examination – October 2025
[US03CBCA53] : Database Management System - II

Date: 04/10/2025 (Saturday)

Time: 2.00pm to 5.00pm

Total Marks: 70

Note: Figure indicates at right is maximum marks for question.

- Q -1** Select an appropriate option for the following statements. **[10]**
1. Which normal form identifies functional dependencies?
[a] 1-NF [b] 2-NF
[c] 3-NF [d] None of these
 2. Normalization is a process of restructuring a relation to,
[a] Minimize duplication of data in database [b] Minimize duplication of data to ensure reliability
[c] Make it to uniform size [d] Allow addition of data
 3. A third Normal Form (3 NF) relation should
[a] Be in 2 NF [b] Not have complete key
[c] Not be in 1 NF [d] Not have non-key attributes depend on key attribute
 4. _____ section is mandatory in PL/SQL Block.
[a] Exception [b] Main
[c] Declare [d] Begin
 5. A _____ marks a sequence of statements that has to be repeated
[a] End [b] Loop
[c] Continue [d] goto
 6. _____ control structure, has no need to declared to memory variable.
[a] If [b] for
[c] While [d] None of these
 7. _____ exception is raised when the data type or data size is invalid.
[a] Program_error [b] Value_error
[c] Type_invalid [d] None of these
 8. Data stored in a cursor is known as _____.
[a] Implicit cursor [b] Current data set
[c] Active data set [d] None of these
 9. A _____ is Execute automatically when an associated DML statement is executed.
[a] Trigger [b] Procedure
[c] Package [d] Function
 10. Which of this is an advantage of PL/SQL Packages?
[a] Modularity [b] Better performance
[c] Information hiding [d] All of these

Q-2 Answer the following questions in brief. (Attempt any Ten) [20]

1. List any five codd's rules.
2. What is normalization? What is the need of normalization?
3. Define: DBMS
4. Draw PL/SQL block structure.
5. Explain %rowtype attribute.
6. Explain use of EXIT..WHEN statement.
7. Explain select..into statement of PL/SQL.
8. Write any two differences between implicit and explicit cursor.
9. Write syntax for FETCH attribute of cursor.
10. What is stored procedure?
11. Write a syntax of function.
12. What are the merits of package?

Q-3 What do you mean by Relationship? Discuss various types of relationship with example. [10]

OR

Q-3

[A] Explain 1NF and 2NF taking example. [05]

[B] Explain components of E-R diagram with example. [05]

Q-4

[A] Explain if..then and if..then..else control statement with example. [05]

[B] Write a note on PL/SQL Datatypes [05]

OR

Q-4

[A] Explain CASE statement using example. [05]

[B] Explain While loop with syntax and example. [05]

Q-5

[A] What is cursor? Explain various attributes of explicit cursor. [05]

[B] Explain user defined exceptions with syntax and example. [05]

OR

Q-5

[A] Write advantages of exception handling in PL/SQL. [05]

[B] List exceptions available in Oracle. Explain any one of them using example. [05]

Q-6

[A] Write a note on function. [05]

[B] What is Package? Discuss about components of package. [05]

OR

[A] What is trigger? Write a syntax to create a trigger and explain using example [05]

[B] Discuss merits of procedure. [05]
