SARDAR PATEL UNIVERSITY
B.C.A. (III SEMESTER) EXAMINATION
FRIDAY, 14TH FEB., 2020
10:00 A.M. TO 12:00 P.M.
Introduction to Artificial Intelligence (US03EBCA02)

TOTAL MARKS: 70

Q-1 Select the correct option for each of the Following.

[10]

1. Medical Diagnosis is a _____.
(a) Mundane task (b) Formal task
(c) Expert task (d) None of these
2. _____ permits the user to communicate with the system in more natural way.
(a) Inference Engine (b) User Interface
(c) Knowledge Base (d) None of these
3. _____ coined the term Artificial Intelligence in 1956.
(a) Alan Turing (b) John McCarthy
(c) Marvin Minsky (d) Claude Shannon
4. Predicates are also known as _____.
(a) Functions (b) First-order
(c) Atoms (d) Heuristic
5. Representation of objects which are defined in terms of symbols that can be manipulated in programs. This is known as _____.
(a) Knowledge level (b) Symbol level
(c) Fact level (d) All of Above
6. _____ involves interpreting sights, sounds, smells, and touch.
(a) Logic (b) Vision
(c) Perception (d) Planning
7. _____ is known as the father of Expert systems.
(a) Professor E. Feigenbaum (b) Lotfi Zadeh
(c) Alan Turing (d) None of these
8. Frames and Scripts are examples of _____.
(a) Logical representation scheme (b) Procedural representation scheme
(c) Network representation scheme (d) Structured representation scheme
9. _____ was one of the first tasks undertaken in AI since 1950, almost as soon as computers become programmable.
(a) Natural Language Processing (b) Games Playing
(c) Robotics (d) None of these
10. Rule based systems is an example of _____.
(a) Logical representation scheme (b) Procedural representation scheme
(c) Network representation scheme (d) Structured representation scheme

(1)

(P.T.O.)

Q-2 Attempts any Ten.

[20]

1. List the Task domains of AI.
2. List any two definitions of AI.
3. Write difference between Skills vs. Knowledge.
4. What is Expert system?
5. List the various application areas in ES.
6. List the areas of AI.
7. What is Knowledge base?
8. List the applications of ES.
9. What is a Crisp set?
10. State any two problems with Robots.
11. What is Fuzzy Sets?
12. What is an expert shell?

Q-3 Answer the following.

- A. Write a note on AI and related fields. (10)

OR

- A. Write any five definition of AI. (5)
- B. What is Intelligent? Explain intelligent behavior in detail. (5)

Q-4 Answer the Following.

- A. State the advantages of expert system. (5)
- B. Write a note on the general structure of an Expert system. (5)

OR

- A. Write down characteristics of Expert System. (5)
- B. Write a note on knowledge representation. (5)

Q-5 Answer the Following.

- A. Write a note on Expert Shell. (5)
- B. Give difference between Crisp sets and fuzzy sets. (5)

OR

- A. Write a short note on. (10)
1. Games Playing
 2. Natural Language Processing.

Q-6 Answer the Following.

- A. Write a note on crisp sets. (5)
- B. Write a note on Robotics. (5)

OR

- A. Write a note on Fuzzy logic. (10)
