- 9) The paint method accepts _____ type of argument.
(a) Graphics (b) Graphic (c) Drawing (d) None of these
- 10) _____ is valid parameter to set the background color as red.
(a) Color.RED (b) Color=RED (c) new Color(RED) (d) setColor(RED)

Q-2 Short Questions (Attempt any Ten) (20)

- 1) What is JVM (Java Virtual Machine) ?
- 2) Write down the rules for variable naming in Java.
- 3) Java is platform independent and portable. Justify.
- 4) Define class. How does it accomplish data hiding?
- 5) What is the meaning of the static keyword?
- 6) Define interface. Write the syntax for implementing an interface in a class.
- 7) Give examples of the Run-time error.

- 8) List out Java API packages.
- 9) Define the term – Exception and Exception Handling.
- 10) What is event delegation?
- 11) List out the methods of MouseListener.
- 12) Write difference between java applet and java application program.

Q-3 A List out the decision making statements available in java. Explain with example. (05)

B Explain scope of variable in Java. (05)

OR

Q-3 A List out the Looping statements available in java. Explain with example. (05)

B What is Java? Explain the features of Java. (05)

Q-4 A Define inheritance. Explain different forms of inheritance. (05)

B Write a short note on method overloading and method overriding. (05)

OR

Q-4 A What is a constructor? What are its special properties? Give example. (05)

B Explain super and final keyword with example. (05)

Q-5 A What is exception? Explain the syntax of try and catch block with example. (05)

B Explain Reader and Writer stream classes. (05)

OR

Q-5 A List out any five methods of String class by giving an example. (05)

B What is package? What are the benefits of package? Explain Java API package. (05)

Q-6 Write a short note on following components. Give example of each. **(10)**

(i) List (ii) Button

OR

Q-6 Write a short note on following components. Give example of each. (10)

(i) TextField (ii) Label

~~_____~~
