SARDAR PATEL UNIVERSITY
SYBCA (SEMESTER-IV) EXAMINATION April-2023
05 April, 2023, Wednesday
02:00 p.m. to 05:00 p.m.
US04CBCA51 (Object Oriented Programming - II)

Marks: 70
[10]

Q. 1 Multiple Choice Questions

- 1 JVM stands for _____.
a) Java Virtual Machine b) Java Variable & Methods
c) Java Virtual Method d) Java Versatile Machine
- 2 Java compiler translates source code into _____.
a) Bytecodes b) Bitcode c) Machine Code d) User code
- 3 _____ is reserved keyword in java.
a) abstract b) extends c) package d) All of above
- 4 Range of short variable is _____.
a) -128 to 128 b) -32768 to 32767
c) -128 to 127 d) -32768 to 32768
- 5 We cannot create a subclass of _____ class.
a) final b) Abstract c) public d) static
- 6 The subclass constructor uses the _____ keyword to invoke the constructor of the superclass.
a) super b) static c) Final d) public
- 7 Which package is used for creating and implementing applets.
a) java.applet b) java.util c) java.lang d) java.awt
- 8 "Divided an integer by zero" is the example of _____ type of error.
a) Compile-time b) Run-time c) Logical d) Exception
- 9 To implement pop up style single content selection, _____ component is used.
a) TextArea b) Choice c) List d) Button
- 10 The paint method accepts _____ type of argument.
a) Graphic b) Graphics c) Drawing d) None of these

Q. 2 Short Question (Any TEN)

[20]

- 1 Draw the Java program structure.
- 2 Define the break and continue statements
- 3 Java is distributed language – Justify.
- 4 What are the conditions for using super() method.
- 5 Differentiate between Classes and Interface.
- 6 Define method overriding.
- 7 Give examples of the Run-time error.
- 8 List out the different types of exception.
- 9 List the java API packages. Explain any one.
- 10 Explain following methods
(1) setBackground()
(2) setForeground()
- 11 List out methods of MouseListener.
- 12 Write difference between java applet program and java application program

- Q. 3**
- [A]** List out the looping statements available in Java. Explain with example. **[5]**
- [B]** What is Java? List all and Explain any two features of Java. **[5]**

OR

- [A]** List out the decision making statements available in Java. Explain with example. **[5]**
- [B]** Explain break and continue statements with example. **[5]**

Q. 4

- [A]** Explain super and final keyword with example. **[5]**
- [B]** Write short note on method overloading and method overriding. **[5]**

OR

- [A]** Define inheritance. Describe different forms of inheritance. **[5]**
- [B]** Define class. How do classes help us to organize our programs? What are the three parts of a simple, empty class? **[5]**

Q. 5

- [A]** Explain Arithmetic Exception with an example. **[4]**
- [B]** What is exception? Explain the syntax of try block and catch block with an example. **[6]**

OR

- [A]** Explain Reader stream classes and Writer stream classes. **[4]**
- [B]** What is package? What are the benefits of package? Explain Java API packages. **[6]**

Q. 6 Write short note on following components. **[10]**

- (1) Label
- (2) TextField
- (3) Choice
- (4) Button
- (5) List

OR

Q. 6 Explain Applet life cycle in detail **[10]**

— x —
