SARDAR PATEL UNIVERSITY

T.Y.B.C.A. (5th Semester) (CBCS) Examination, ~~MARCH~~ - 2022

US05CBCA25 : Object Oriented Programming – III

Date: 24/3/2022

Time: 2:00 to 04:00 Pm

Total Marks : 70

Q.1 Multiple choice questions:

[10]

1. ____ is a java API which enables the java programs to execute SQL statements.
A. JDBC
B. JDK
C. JRE
D. Applet
2. List Interface is implemented by the classes of ____
A. ArrayList
B. Stack
C. Vector
D. All of the above
3. Which of the following method is use to execute insert query.
A. executeUpdate()
B. executeInsert()
C. executeQuery()
D. executeAdd()
4. The life cycle of a servlet is managed by
A. the supporting protocol
B. servlet container
C. JRE
D. all of the above
5. Which of the following code is used to get cookies in servlet?
A. response.getCookies()
B. request.getCookies()
C. Cookies.getCookies()
D. None of the above.
6. Using JSP, developer can make ____ type of application.
A. Web based Application
B. Console based Application
C. Mobile Application
D. None of these
7. "request" is instance of which one of the following classes?
A. Request
B. HttpRequest
C. HttpServletRequest
D. ServletRequest
8. Which are the methods of the object class?
A. notify();
B. wait(long msces);
C. notifyAll();
D. All of them
9. Which method of the thread class is used to find out the priority given to a thread?
A. get();
B. getPriority();
C. threadPriority();
D. getThreadPriority();
10. Which method we implement from runnable interface?
A. start();
B. run();
C. execute();
D. call();

Q.2 (A) Fill In the blanks.

[08]

1. _____ package must import before use of JDBC in program.
2. JSP Stands for _____
3. <%---%> tag is called _____
4. _____ is sometimes called a lightweight process.

(B) TRUE/FALSE

1. The wrapper class in Java provides the mechanism to convert primitive into object and object into primitive.
2. Servlets create static webpages, whereas Applets creates dynamic webpages.
3. `<%= ----%>` used to define expression in JSP.
4. Thread synchronization in a process will be required when all thread sharing same address space.

Q.3 Attempt any *Ten* out of *Twelve*.

[20]

1. Differentiate autoboxing and unboxing.
2. Write two differences between ArrayList and Vector.
3. List out the type of Driver available in JDBC API.
4. What is session in servlet?
5. Explain `init()` of servlet method in brief.
6. Draw the Web Based Architecture.
7. List the directives used in JSP with syntax of it.
8. Write the phases of JSP life cycle pages.
9. Write two difference between JSP and servlet.
10. Define `wait()` and `notify()` method.
11. Write down Thread characteristics.
12. List any four Java Thread Methods except `wait()` and `notify()`.

Q.4 Attempt any *Four* out of *Eight*.

[32]

1. What is JDBC? Explain components of it and give the example of it.
2. Explain the ArrayList and Vector with example.
3. What is servlet? Explain Servlet Life Cycle in detail.
4. Explain cookie in servlet with example.
5. Write a note on components of JSP in detail.
6. Explain the Life cycle of JSP with one example.
7. What is thread? Draw Life Cycle of a Thread and explain in detail.
8. What is Thread Synchronization? Explain how to Implement it with example.
