SARDAR PATEL UNIVERSITY

BCA Semester-5 On demand Examination, February - 2024

US05CBCA53|| SOFTWARE ENGINEERING

Date : 17-02-2024, Saturday

Time : 10.00 a.m. – 01.00 p.m.

Total : 70 Marks

Q-1 Select the appropriate option for the following questions:

10

- 1) The coding should follow rules of _____.
A. Structured Programming C. Integrated Programming
B. UML D. OOP
- 2) _____ is the simplest and most widely used software development model.
A. Spiral C. Iterative enhancement
B. Prototype D. Waterfall
- 3) An SRS provides a reference for _____ of the final product.
A. Validation C. Verification
B. Xerox copy D. Quality
- 4) COCOMO stands for:
A. Construction Cost Model C. Constructive Code Model
B. Constructive Cost Model D. Calculated Cost Model
- 5) In functional abstraction the module considered as _____ for detail design.
A. White box C. Compiled box
B. Black box D. None
- 6) Which is not the level of Cohesion?
A. Logical C. Sequential
B. Physical D. Coincidental
- 7) In programming style, nesting means _____.
A. switch C. nested function
B. if-then-else D. nested for loop
- 8) Comments for a module are often called _____ for the module.
A. prologue C. information
B. message D. None of these
- 9) A failure is produced only when there is a _____ in the system
A. error C. fault
B. bug D. problem
- 10) _____ characteristic of SRS means the entire requirement denotes one interpretation.
A. Complete C. Unambiguous
B. Reliability D. Traceable

Q-2 Give short answers of the following questions: (Attempt TEN out of TWELVE)

20

- 1) Write a short note on Requirement analysis phase.
- 2) Define: Software process and Software Engineering.
- 3) Explain advantages of spiral model.
- 4) List down at least 8 variables of COCOMO model.
- 5) Explain Partitioning.

Seat No : _____

No. of Printed Pages: _____

- 6) "A high quality SRS is prerequisite to high quality software." Justify.
- 7) Differentiate between Functional and Object-oriented approaches.
- 8) Explain in brief Design walkthrough.
- 9) Define: Module and Modular System.
- 10) Write at least 2 differences between functional and structural testing.
- 11) Which are the control constructs used in structured programming?
- 12) Write the goal of coding.

- Q-3 A Explain Waterfall model. 06
B Explain characteristics of software process. 04

OR

- Q-3 A Explain coding and testing phases. 06
B Explain Prototype model. 04

- Q-4 A Explain general characteristics of SRS. 06
B What is SRS? Explain needs of SRS. 04

OR

- Q-4 A Explain any two components of SRS. 06
B Write a short note on Structured English. 04

- Q-5 A Explain levels of Cohesion. 06
B Write a short note on Coupling. 04

OR

- Q-5 A Discuss the design objectives in detail with proper illustrations. 06
B Explain verification techniques for system design. 04

- Q-6 Explain coding approach and programming style. 10

OR

- Q-6 What is testing? Explain levels of testing in detail with diagrams. 10
