- Q.2 Attempt any ten out of twelve. [20]**
1. What do you mean by compiler?
 2. What are structure editor and pretty printer?
 3. Define the Lexical & syntax Rule.
 4. What is Machine instructions format?
 5. Explain Branch on Condition instruction.
 6. Explain DS and DC of declaration statements in brief.
 7. Draw the schematic diagram of program execution.
 8. Define the term linking.
 9. List different types of Editors.
 10. Explain Debug Monitor
 11. What is a command dialog design?
 12. Explain: Hypertext, Hyper card, Menulay
- Q.3 (a) What is Language Processing? Explain Application, PL & Execution domain. [5]**
- (b) List the phases of a compiler and explain the analysis part of it in detail. [5]**
- OR
- (a) Explain Language Processing Activity in detail. [5]**
- (b) List the phases of a compiler and explain the synthesis part of it in detail. [5]**
- Q.4 Write note on assembly language statements and assembler directive. [10]**
- OR
- Q.4 Explain design specification of an assembler. Also explain Elements of Assembly language programming in detail. [10]**
- Q.5 (a) Explain Translated, Linked and Load time address. [6]**
- (b) Explain Editors briefly. [4]**
- OR
- (a) Define program relocation and perform relocation. [6]**
- (b) Explain Loading with Example. [4]**
- Q.6 (a) Explain Program Testing and Debugging. [5]**
- (b) Explain Program environments in brief. [5]**
- OR
- (a) Explain structure of user interface. [5]**
- (b) Define Software Tools. Discuss software tools for programming development. [5]**
