SARDAR PATEL UNIVERSITY
BCA Semester-6 Examination – April-2023
US06CBCA02 || COMPUTER NETWORKS [Old Course]
Time : 10.00 a.m. – 01.00 p.m.

Date : 05-04 -2023

Total : 70 Marks

Q-1 Select the appropriate option for the following questions:

10

- 1) The connection of two or more networks is called an _____.
A. computer network C. internet
B. internetwork D. local Area Network
- 2) When the packets are small and all the same size, they are often called _____.
A. Cells C. Trunks
B. Circuits D. Subnet
- 3) A _____ cable consists of two conductors each with its own plastic insulation, twisted together.
A. Twisted-pair C. Coaxial
B. Fiber-optic D. Shielded twisted-pair
- 4) Which of the following is not a guided medium?
A. Twisted-pair C. Coaxial
B. Fiber-optic D. Atmosphere
- 5) OSI stands for _____.
A. Open system interface C. OpenSystem Interconnection
B. Organization Standard interface D. Open Standard Interconnection
- 6) The signal from a satellite is normally aimed at a specific area called _____.
A. Channel C. Footprint
B. Tower D. Orbit
- 7) Which of the following CSMA has highest chances of collision?
A. 1-persistent C. p-persistent
B. non-persistent D. All have equal chances
- 8) A repeater operates at _____ layer.
A. Physical C. Datalink
B. Network D. Transport
- 9) _____ network consists of many connection between individual parts of machines.
A. Point-to-Point network C. Broadcast network.
B. People network D. Specialized network
- 10) _____ is a digital multiplexing technique for combining several low-rate channels into one high-rate one.
A. FDM C. WDM
B. TDM D. None of these

Q-2 Give short answers of the following questions: (Attempt TEN out of TWELVE)

20

- 1) Explain Broadcast network in short.
- 2) Explain SUBNET in brief.
- 3) Explain DQDB in brief.

Seat No : _____

No. of Printed Pages: _____

- 4) What do you mean by Multiplexing? List out various Techniques
- 5) Explain application of twisted pair in short.
- 6) Write the difference between circuit switching and packet switching.
- 7) What is OSI model? Draw diagram for protocol of different layer of OSI Model.
- 8) Explain orbit.
- 9) What is satellite? List categories of satellite.
- 10) Explain the function of modem.
- 11) Draw the diagram of Mesh topology.
- 12) Explain Gateway.

- Q-3 A Explain MAN in detail. 5
B How can we classify computer Network? Explain. 5

OR

- Q-3 A Explain WAN in detail. 5
B What are the uses/advantages & Disadvantages of computer networks? Explain in detail. 5

- Q-4 A Explain Fiber optic in detail. 6
B Explain serial transmission in detail 4

OR

- Q-4 A Explain coaxial cable in detail with its performance and applications. 6
B Explain parallel transmission in detail 4

- Q-5 A List all layers of OSI model. Explain each layer in short. 6
B Write a note on protocol hierarchies. 4

OR

- Q-5 A Write a note on design issues for the layers. 6
B Explain GEO satellite in detail. 4

- Q-6 Write a short note on : Repeater and Hub [10]

OR

- Q-6 Explain Star topology and Bus topology with their advantages & disadvantages in detail. [10]
