 a. Else if b. Elseif c. Elif d. None of these

Q. 2 Short Question (Any TEN)

[20]

- 1 How to define comments in Python?
- 2 Write the syntax for if in Python
- 3 List out Applications of Python.
- 4 What is set? How to interaction of set in detail.
- 5 List out python collection and explain any two of them.
- 6 Explain string function len() with example.
- 7 Define: Function in python.
- 8 Define method overloading in python.
- 9 Explain _init_ method with example.
- 10 How to create a database connection?
- 11 What are the modes of a file with their short description?
- 12 How to create a new file in python?

①

(P.T.O.)

Q. 3

[A] Explain the features of Python in detail. [05]

[B] Write a detailed note on User Input and Output in Python in detail. [05]

OR

Q.3

[A] Explain decision making and branching in Python [05]

[B] What is meaning of Type Casting? Explain type casting functions of Python. [05]

Q. 4

[A] What is else statement in while loop? [05]

[B] What is Python JSON? Explain with Example [05]

OR

Q. 4

[A] Explain FOR Loop with else statement. [05]

[B] What is python list? List out python list and explain any three of them. [05]

Q. 5

[A] What is inheritance? List all types of inheritance. Explain any two inheritance with example [05]

[B] Write a detailed note on classes and objects in python. [05]

OR

Q. 5

[A] Explain constructor and their types in python with appropriate example. [05]

[B] Write a detailed note on exception handling in python. [05]

Q. 6

[A] Explain in detail open() function. [05]

[B] Explain Insert operation with example. [05]

OR

Q. 6

[A] Explain the readline() function in python. [05]

[B] Explain Delete operation in database with example. [05]
