

SARDAR PATEL UNIVERSITY**M.Sc. (Information Technology)****Semester- I External Examinations****PS01CINT31 (Object Oriented Programming using Java)****Monday, 22th February, 2021****Time: 10:00 am to 12:00 noon****Total Marks: 70****Q.1 [A] Multiple Choice Questions****[08]**

- 1 Primitive types hold their values in the _____ rather than being references to values.
A. Heap B. Stack
C. Array D. None of these
- 2 The Event listener represents the _____ responsible to handle events.
A. Classes B. Interfaces
C. Exceptions D. None of these
- 3 _____ keyword is used to inherit a class.
A. implements B. extend
C. extends D. inherits
- 4 The _____ method loads the JDBC driver and registers the driver with the driver manager.
A. forName() B. driver()
C. load D. None of these
- 5 An _____ is a collection of abstract methods.
A. Generics B. Interface
C. Enum D. Class
- 6 In _____ component we can select multiple items.
A. TextField B. Label
C. List D. ComboBox
- 7 _____ created specially to work with the Internet.
A. Applet B. Swing
C. GUI D. Servlet
- 8 JDBC application must import _____ package.
A. jdbc B. sql
C. mysql D. sqi

Q.1 [B] Answer the following questions :**[16]**

- 1 Java compiler translates source code into _____
- 2 The process of converting one data type to another is called _____
- 3 What are Standard Streams?
- 4 JVM Stands for _____
- 5 The mechanism of deriving a new class from an old one is called _____
- 6 Differentiate between AWT and Swing.
- 7 Define class and object.
- 8 Which of this method of class String is used to obtain a length of String Object? _____

- 9 What is a layout manager?
- 10 List different data types available in java.
- 11 Which packages provides many event classes and Listener interface for event handling?
- 12 List the steps for required for querying a database from a java program.
- 13 JDBC stands for _____
- 14 Define JVM.
- 15 Write the advantage and disadvantage of AWT.
- 16 What an event?

Q.2 Answer the following questions :(Attempt any Seven) [14]

- 1 Java is platform-independent and portable. - Justify.
- 2 List out the types of operators used in Java.
- 3 What is a bytecode?
- 4 Explain any two string methods.
- 5 Explain read method of Reader class.
- 6 List different types of Java Programs.
- 7 Explain BorderLayout in Swing.
- 8 What is JDBC?
- 9 Explain FileWriter class.

Q.3 [A] What is Java? List out features of Java and explain anyone. [05]

Q.3 [B] Explain implements keyword with examples. [03]

OR

Q.3 [A] Explain Exception handling in detail. [05]

Q.3 [B] Explain extends keyword with examples. [03]

Q.4 [A] Write a short on interfaces. Explain differences and similarities of interfaces with classes. [04]

Q.4 [B] Explain any two String handling function with example. [04]

OR

Q.4 [A] Discuss multithreading concept with an example. [04]

Q.4 [B] Discuss any two StringBuffer class methods with example. [04]

Q.5 [A] What is a Layout? List and explain different layouts available in a swing. [04]

Q.5 [B] List different Swing GUI Components. Explain ant two in detail. [04]

OR

Q.5 [A] Explain any two I/O stream supported by java in brief. [04]

Q.5 [B] Write a short note on JButton. Also explain its properties and methods. [04]

Q.6 [A] List out important member functions from util Package and explain anyone. [04]

Q.6 [B] Explain any two ways to load and register a driver in a java program. [04]

OR

Q.6 [A] What are different types of JDBC Drivers? [04]

Q.6 [B] What is JDBC Connection? Explain steps to get a Database connection in a simple java program. [04]
