[A] tkinter [B] tkgui [C] Both A & B [D] None of these
7. _____ mode of file, opens a file for writing and creates the file if it does not exists.
[A] r [B] w [C] x [D] a
8. Which is/are the attributes of mysql.connector.connect?
[A] host [B] user [C] password [D] All of these

Q:2 Answer the following questions in brief (Attempt any Seven) [14]

1. What is Python? List the features of python
2. Explain syntax and use of range() function.
3. Explain input() with its use, syntax and example.
4. Differentiate: list & tuple
5. Explain dict() with example.
6. How can we install, uninstall, update and use modules in Python?
7. Define parent class & child class.
8. Explain any two file handling functions of python.
9. Explain cursor() method of connection object in python.

C.P.T.O.)

Q.3 [A] Discuss various applications areas of python. [06]

[B] List conditional statements available in python. Explain if...else with its use, syntax and example. [06]

OR

[B] Explain for...in loop with its use, syntax and example.

Q.4 [A] Explain List with any four methods of it with use, syntax and example. [06]

[B] What is tuple? Explain how to create and access tuple elements in python? [06]

OR

[B] What is string? Explain how to compare and join a string in python?

Q.5 [A] Write a note on exception handling in python. [06]

[B] What is inheritance? List various types of inheritance and explain any two of them by taking suitable example. [06]

OR

[B] What is user-defined-function? How can we define function & call a function? Explain with its use, syntax and example.

Q.6 [A] List and explain various file opening modes available in python. [06]

[B] List various steps for connecting python with MySQL. Explain each steps by taking suitable example. [06]

OR

[B] Write a note on tkinter in python.
