SARDAR PATEL UNIVERSITY
Master of Science (IT) (Semester 2) Examination
PS02EINT52: Data Science

28/11/2024

Time: 10:00 A.M TO 01:00 P.M

Marks: 70

NOTE: Figure to the right indicates full marks of the questions.

Q-1 Choose the most appropriate answer for given Multiple Choice Questions. [08]

1. Data represented in an XML file are example(s) of _____ type of data
a. Structured b. Semi-structured c. Unstructured d. All of given
2. _____ type of analytics utilizes previous data to make predictions about future outcomes.
a. Diagnostic b. Machine learning c. Discovery d. None of given
3. _____ is a common tool for model building.
a. Statistica b. WEKA c. Matlab d. All of given
4. _____ is not a common tool for model planning.
a. SAS b. R c. SPCS Modeler d. All of given
5. _____ Python library is used to create n-array.
a. Pandas b. SciPy c. NumPy d. None of given
6. _____ option can be used to measure mass of an object.
a. liter b. meter c. kb d. None of given
7. _____ is an integrated development environment (IDE) for R.
a. IDE b. RStudio c. a and b both d. None of given
8. Which library is more focused on scientific implementations?
a. Pandas b. SciPy c. NumPy d. None of given

Q-2 Answer the following question in brief. (Attempt Any SEVEN) [14]

1. Which subjects are involved in Data Science?
2. List out the important characteristics of data scientist.
3. Give at least TWO example(s) of unstructured data.
4. Define Big Data. State at least two examples of big data.
5. Explain shortly importance of unstructured data.
6. List out data quality traits.
7. Give introduction of Matplotlib.
8. Write the uses of Scipy
9. List out TWO unstructured data analytic tools with their uses.

Q-3 Do as directed:

(A) Explain briefly at least THREE importance of data science in business. [06]

(B) Explain briefly TWO current trends of Data science. [06]

OR

(B) Discuss the main phases of Data science. [06]

Q-4 Do as directed:

(A) Write steps to analyse unstructured data. [06]

(B) Explain the importance of Big data. [06]

OR

(B) Write a note on types of digital data. [06]

Q-5 Do as directed:

(A) Define big data analytics. Also list out characteristics of big data analytics. [06]

(B) Write short note on Big data analytic techniques. [06]

OR

(B) Write short note on: Importance of Big data analytics. [06]

Q-6 Do as directed:

(A) Briefly introduce R and R Studio. [06]

(B) Write a short note on NumPy. [06]

OR

(B) Write short note on Pandas. [06]
