SARDAR PATEL UNIVERSITY
M.Sc.(Information Technology)

SEMESTER-II

External Examination[NC]

PS02CINT22- Software Engineering

20th November, 2019

Wednesday

Time: 10.00am- 1.00pm

Marks:70

Q1 Give answers of following Multiple choice questions.

[8]

- 1 _____ is the process to plan a solution for the problems given in requirement analysis.
A Coding B Testing
C Requirement Analysis D Design
- 2 _____ is not the software process characteristic.
A Predictability B Support Testability & Maintainability
C Scalability D Early defect removal & Prevention
- 3 COCOMO stands for:
A Construction Cost Model B Constructive Cost Model
C Constructive Code Model D Calculated Cost Model
- 4 _____ reduces the communication gap between client and developer.
A DFD B Testing
C Requirement Analysis D SRS
- 5 _____ refers to the difference between actual output and ideal output.
A Mistakes B Failure
C Error D Fault
- 6 Structural testing is also known as _____.
A Black Box Testing B White Box testing
C Beta Testing D Unit Testing
- 7 The strongest type of coupling is _____.
A Data Coupling B Control Coupling
C Abstract Coupling D Tight Coupling
- 8 UML is proposed by _____.
A Booch B Booch & Rumbaugh
C Jakobson D Both A and B

Q2 Do as directed (Any 7)

[14]

- 1 List the phases of software engineering.
- 2 Draw the diagram of Iterative enhancement model.
- 3 What are the risk management activities?
- 4 List components of SRS. Explain one.
- 5 What are the goals of software engineering?
- 6 Differentiate between Object Oriented Design and Object Oriented Analysis.
- 7 What is difference between Verification and Validation?
- 8 Write a short note on Activity diagram.
- 9 Write a short note on Software Re-engineering.

(P.T.O.)

①

- Q3 [A] Discuss the characteristics of software process. [6]
Q3 [B] Explain Waterfall model with advantages and limitations. [6]
OR
Q3 [B] What are the phases of software development? Explain one. [6]
Q4 [A] Write a note on COCOMO model. [6]
Q4 [B] Explain general characteristics of SRS. [6]
OR
Q4 [B] Explain Risk management. [6]
Q5 [A] What is UML? Explain Use case Diagram and Sequence Diagram using with proper example. [6]
Q5 [B] What is coupling? Explain different types of coupling in details. [6]
OR
Q5 [B] What is cohesion? Explain different types of cohesion in details. [6]
Q6 [A] What is Software Maintenance? Explain types of maintenance. [6]
Q6 [B] Briefly discuss Incremental coding process. [6]
OR
Q6 [B] What is Software Testing? Enlist types of testing. Explain Black-box testing in brief. [6]
