①

Q-2 Do as directed (Any Seven)

[14]

- (1) List the new features supported by Linux operating system & explain any two of them.
- (2) List any four differences between Windows and Linux operating system.
- (3) List types of storage devices.
- (4) Full form of XML & SOAP.
- (5) Why fragmentation is required? Full form of MTU.
- (6) Define: Data Integrity & Authorization.
- (7) List out the characteristics of cloud computing.
- (8) In context of Big Data, define volume and variety.
- (9) Major difference between symmetric and asymmetric key algorithms.

Q-3 A Explain new features supported by Windows operating system.

[6]

B Explain distributed operating system with pros and cons.

[6]

OR

B Explain Real Time operating system with pros and cons.

[6]

Q-4 A List and explain types of RAM.

[6]

B List and explain different ports of CPU.

[6]

OR

B Explain ERP in detail.

[6]

Q-5 A Explain IPv4 header with diagram.

[6]

B List types of firewalls. Explain any two in detail.

[6]

OR

B Explain Caesar cipher and transposition method with an example.

[6]

Q-6 A What is Cloud computing? Explain Cloud deployment models.

[6]

B Write a note on Data Warehouse.

[6]

OR

B Write a note on Data Mining.
