

SARDAR PATEL UNIVERSITY

M.Sc. Information Technology (Semester-II) Examination – 2019

Date: Wednesday 27th Nov 2019 Subject Code : PS02EINT22 (NC)

Subject Name : Trends in Information & Communication Technology (ICT)

Time: 10:00 a.m. – 1:00 p.m.

Total Marks: 70

Q.1 Multiple Choice Questions.

[08]

- 1 _____ is not a active attack.
 A. Denial of Service
 B. Masquerade
 C. Replay
 D. Traffic Analysis
- 2 RAM stands for _____
 A. Random Access Memory
 B. Random Access Monitor
 C. Right Access Monitor
 D. Right Access Memory
- 3 _____ allows the Web Services to communicate with other web application over the Internet.
 A. SAOP
 B. POP
 C. SOAP
 D. None of these.
- 4 Which notation is used to write IPv6 addresses?
 A. Binary notation
 B. Hexadecimal notation
 C. Decimal notation
 D. None of these
- 5 _____ means software's can works on different types of hardware's in same way
 A. Portable
 B. Scalable
 C. Hyper thread
 D. None of these
- 6 NFC Stands for
 A. Near Field Communication
 B. Near File Communication
 C. Nice Field Communication
 D. Nice File Communication
- 7 _____ is not a function of data mining.
 A. Summarization
 B. Classification
 C. Clustering
 D. Destroying
- 8 Private Cloud is managed by
 A. Single User
 B. A Single Organization
 C. A public organization
 D. None of these.

Q.2 Answer the following Short Questions. (Attempt any seven)

[14]

- 1 Write down advantages of Windows Operating System.
- 2 Define Real Time Operating System.
- 3 Comparison between Linux and Windows.
- 4 List functions of data mining.
- 5 What is NFC? List at least two applications of it.
- 6 Differentiate between Authentication and Authorization.
- 7 List out deployment model of cloud computing. Explain any one.
- 8 Difference between symmetric and asymmetric key algorithms.
- 9 Define: Data Warehouse & Data Mining

(1)

(P.T.O.)

Q.3 Do as Directed.

[A] Discuss features of Windows and Linux Operating System. [06]

[B] Write a note on Distributed OS. [06]

OR

[B] Short note on real time operating system. [06]

Q.4 Do as Directed.

[A] Explain Data Warehouse architecture in detail. [06]

[B] Short note on types of storage devices. [06]

OR

[B] Explain the use and features of application server. Describe 3-tier client-server architecture. [06]

Q.5 Do as Directed.

[A] Differentiate between IPv4 and IPv6. [06]

[B] Write a note on Firewall. [06]

OR

[B] Explain RSA algorithm in detail with suitable example. [06]

Q.6 Do as Directed.

[A] Explain Big Data in detail. [06]

[B] What is cloud computing? Explain characteristics and delivery model of it. [06]

OR

[B] Write a note on Data Mining. [06]
