

SEAT No. _____

[182]

No. of printed pages: 2

SARDAR PATEL UNIVERSITY
Master of Science (Information Technology)
Semester – III External Examination
PS03CINT34 – Trends in ICT
Friday, 26th Nov, 2021

Time: 03.00 P.M. to 05.00 P.M.

26/11/21 - 03 TO 05 PM

Max Marks: 70

Q.1 [A] Multiple Choice Questions

[08]

1. Which of the following is the way in which an IoT device is associated with data?
(A) Internet (C) Automata
(B) Cloud (D) Network
2. An IoT network is a collection of _____ devices.
(A) Interconnected (C) Machine to Machine
(B) Signal (D) Network to Network
3. _____ Cloud allows system and services to be accessible by group of organizations.
(A) Public (C) Hybrid
(B) Private (D) Community
4. Private clouds can also support a _____ cloud model by supplementing local infrastructure with computing capacity from an external public cloud.
(A) Public (C) Hybrid
(B) Private (D) Community
5. SSL stands for _____.
(A) Secure Socket Layer (C) Both A and B
(B) Server Socket Layer (D) None of these
6. _____ is NOT an example of e-Commerce Platform.
(A) Amazon Pantry (C) Flipkart Plus
(B) Reliance Smart (D) D-mart Ready
7. _____ is/are type(s) of Machine Learning.
(A) Supervised Learning (C) Reinforcement Learning
(B) Unsupervised Learning (D) All of these
8. _____ is an advantage/advantages of Neuro fuzzy hybrid system.
(A) User Friendly Approach (C) Both A and B
(B) Easy to understand (D) None of these

Q.1 [B] Do as directed:

[16]

1. What is the full form of RFID?
2. The Raspberry Pi Development Board works on _____ based operating systems.
3. Arduino UNO is a Hardware Device [True/False].
4. NFC stands for _____.
5. Private clouds can also support a _____ cloud model by supplementing local infrastructure with computing capacity from an external public cloud.
6. SaaS means Software allows a service [True/False].
7. _____ is a technique, which allows sharing a single physical instance of an application or resource among multiple organizations or tenants (customers).
8. Write the full form of SOA.
9. Which is a popular electronic payment method to transfer money from one bank to another bank account?
10. A website following the _____ business model sells its products to an intermediate buyer who then sells the product to the final customer.

11. Surfing online describes E-Commerce [True/False].
12. OLX is an example of _____ e-commerce segment.
13. Which sensors convert rays of light in to Electrical signal?
14. Deep learning requires presence of supervisor as a teacher [True/False].
15. _____ is a discipline that deals with hybrid intelligent system.
16. Machine learning is a subset of _____.

Q.2 Answer the following questions: (Attempt any Seven) [14]

1. List out different types of sensors used in IoT.
2. Explain Raspberry PI in brief.
3. Briefly write about proximity sensor.
4. List different application of cloud computing
5. What are the measures for ensuring the security in electronic fund transfer?
6. State advantages and disadvantages of e-commerce for customers.
7. List any four features of E-commerce.
8. What is Back propagation?
9. What is Clustering? List out types of Clustering.

Q.3 Discuss security issues related to IoT. [08]

OR

Q.3 What is IoT? Explain main components used in IoT. How to build IoT? Explain Applications and micro controllers & boards of IoT. [08]

Q.4 Name and explain different cloud services models in detail. [08]

OR

Q.4 Write a short note levels of virtualization. [08]

Q.5 What do you mean by e-commerce? Discuss various modes used for electronic Payment system. [08]

OR

Q.5 Explain 5C model and explain any four E-commerce business models. [08]

Q.6 Explain supervised learning in detail. [08]

OR

Q.6 What is Soft Computing? Explain Hybrid Soft Computing in detail. [08]
