SEAT No. _____

No. of Printed Pages: 02

SARDAR PATEL UNIVERSITY

B.Sc. (CA&IT)

SEMESTER-I

External Examination – Oct 2018

PS01CIIT21- (Computer Programming using C)

24th October 2018, Wednesday

Time: 10:00am to 01:00pm

Marks: 70

Q.1 Multiple Choice Questions

[10]

- 1 _____ is a step by step approach to solve any problem.
[A] Process [B] Programming Language
[C] Algorithm [D] Compiler
- 2 Which of the following is a valid variable name?
[A] customer name [B] cname
[C] Customer Name [D] 1Name
- 3 Do-while loop is also known as _____ loop.
[A] Entry controlled [B] Exit controlled
[C] a & b [D] None of this
- 4 _____ statement is used branch unconditionally from one point to another in the program.
[A] switch [B] if
[C] break [D] goto
- 5 In Array subscript can begin with number _____.
[A] Zero [B] One
[C] Three [D] None of this
- 6 '\0' is _____.
[A] Null Character [B] Character value
[C] Identifier [D] Symbolic Constant
- 7 isdigit() function is available in _____.
[A] <string.h> [B] <ctype.h>
[C] <conio.h> [D] <math.h>
- 8 When we declare string _____ data type is use.
[A] int [B] char
[C] float [D] All of above
- 9 A function definition is also known as _____.
[A] function implementation [B] function call
[C] function type [D] none of above
- 10 The return type must be _____ if no value is return from the function.
[A] void [B] int
[C] float [D] none of these

(1)

(P.T.O.)

Q. 2 Short Question (Any TEN)

[20]

- 1 Draw basic structure of C Program.
- 2 List all different datatypes available in C Language.
- 3 Explain how to give single line and multiline comments in C.
- 4 What is Translator? List all translators.
- 5 Explain conditional operator in brief.
- 6 Mention use of pow () and sqrt () function.
- 7 Give main difference between while and do.. while loop
- 8 Explain purpose of printf() and scanf() function.
- 9 What is string? Write the syntax of declaring string in c. Also give example.
- 10 What is user – define function? Give one example of user define function.
- 11 List out all categories of function.
- 12 What is recursive function?

Q. 3

- [A] What is Flowchart? Also explain symbols used to draw flowchart. [5]
[B] List all operators used in C Language. Explain Arithmetic and Relational operators. [5]

OR

- [A] Write difference between Interpreter and Compiler. [5]
[B] What is variable? Write rules to define a valid variable name with example. [5]

Q. 4

- [A] List down types of loops. Explain for loop in detail with example. [5]
[B] List all flavors of if statements. Explain nested if detail. [5]

OR

- [A] Explain formatted and unformatted I/O Statements. [5]
[B] Explain break and continue statement in detail with example. [5]

Q. 5

- [A] What is array? Explain One dimension array. [5]
[B] Explain following String functions with example: [5]
[1] strcat() [2] strcpy()

OR

- [A] Explain declaration and initialization of two dimensional arrays with example. [5]
[B] Explain following String functions with example: [5]
[1] strcmp() [2] strlen()

- Q. 6** Explain the all elements of function with example. [10]

OR

- Q. 6** Write note on scope, visibility and lifetime of a variable. [10]
