SARDAR PATEL UNIVERSITY
External Examination (CBCS)
M. Sc. - Information Technology (Integrated)
2nd - Semester (CBCS)
PS02CIIT01: Management Information Systems
23rd March, Saturday - 2019

Time: 10:00am to 1:00pm

Total Marks: 70

Q-1 Select an appropriate option.

10

1. _____ is known as processed data.
(a) Data (b) Information (c) MIS (d) All of the above
2. _____ is the process of ensuring that operations proceed according to plan.
(a) Feed forward (b) Control (c) Feedback (d) Planning
3. Which is not a function of management?
(a) Planning (b) Decision making (c) Processing (d) Control
4. The features, which define the extent of a system, are its _____.
(a) Environment (b) Boundaries (c) Overlapping (d) None of these
5. A system isolated from its environment is known as _____.
(a) Shared system (b) Open system
(c) Deterministic system (d) Closed system
6. _____ Systems are predictable systems where the output can be predicted from the input.
(a) Probabilistic system (b) Self organizing system
(c) Deterministic system (d) Closed system
7. _____ Systems deal with day-to-day operation of organization.
(a) Managerial (b) Strategic (c) Operational (d) None of these
8. _____ are the statements of conduct.
(a) Mission (b) Objectives (c) Plans (d) Policies
9. Systems where no feedback loop exists and control is external to the system and not an integral part of it are known as _____ system.
(a) Open loop (b) Closed loop (c) Single loop (d) None of these
10. JIT stands for _____.
(a) Just-in-tune (b) Just-in-time (c) Jumps-in-tune (d) Jumps-in-time

Q-2 Answer the following questions. (Attempt any TEN)

20

1. Define planning.
2. What is relevant information for a manager?
3. List the functions of management and explain any one.
4. What is sub-optimality?

5. What do you mean by bottom-up approach?
6. Define system boundaries.
7. Define planning.
8. List the complete cycle of managerial functions.
9. What do you mean by shareholder theory?
10. Define Control.
11. Explain the elements of control cycle.
12. What do you mean by multiple control factors?

Q-3

- | | |
|---|---|
| (a) What is MIS? What problems have been found from surveys of MIS? | 5 |
| (b) What is the role of MIS in organizations? | 5 |

OR

Q-3

- | | |
|---|---|
| (a) What are the main areas of knowledge required for MIS design? | 5 |
| (b) What are the functions performed by information? | 5 |

Q-4

- | | |
|---|---|
| (a) What are the key functions of system approach? | 5 |
| (b) What are the characteristics of good information? | 5 |

OR

Q-4

- | | |
|---|---|
| (a) Explain the deterministic, probabilistic & self-organizing systems. | 5 |
| (b) Distinguish between hard and soft properties. | 5 |

Q-5

- | | |
|---|---|
| (a) What is decision making? What are simon's four phases of decision making? | 5 |
| (b) Explain the planning problems. | 5 |

OR

Q-5

- | | |
|---|---|
| (a) Explain the type of sources of planning information. | 5 |
| (b) Give examples of decision making and information requirements at strategic level. | 5 |

Q-6 Discuss:

- | | |
|---|----|
| (i) Characteristics of control systems at various levels in the organization. | 10 |
| (ii) TQM | |

OR

Q-6 Discuss: (i) Positive Feedback (ii) Negative Feedback 10
