SARDAR PATEL UNIVERSITY
M.Sc.IT(Integrated) NC, 5th Semester
Wednesday, 30th December, 2020.

Evening Time: 03:00 P.M to 05:00 P.M

Subject Code: PS05CIIT03

Subject: Object Oriented Programming through Java

Total Weight age/Marks: 70

Q.1 Multiple Choice Questions.

(10)

1. Java compiler translates source code into _____.
A. Bytecodes (Virtual Machine Code) B. Bitcode
C. Machine Code D. User code
2. The java interpreter uses _____ method before any objects are created.
A. Class B. Main
C. Constructor D. All of above
3. _____ Variables and methods can be called without using the objects.
A. static B. final
C. abstract D. none of the above
4. What keyword is used in Java to define a constant?
A. Static B. final
C. abstract D. private
5. _____ constructor is created when object of particular class is created.
A. Default B. Copy
C. Parameterized D. None of these
6. _____ method is used to find the nth no. of character of given string s1.
A. s1.index(n) B. s1.substring(n)
C. s1.length() D. s1.charAt(n)
7. Which package is used for creating and implementing applets.
A. java.lang B. java.util
C. java.applet D. java.awt
8. The paint method accepts _____ type of argument.
A. Graphics B. Graphic
C. Drawing D. None of these
9. JDBC application must import _____ package.
A. io B. sql
C. event D. util
10. _____ is a multi-line edit control.
A. TextField B. TextArea
C. label D. Button

(P.T.O)

Q.2 Fill in the Blanks and True-False

[08]

1. Java does not support Global Variable. (True/False)
2. == is not assignment operator? (True/False)
3. Multiple inheritance is not supported by JAVA. (True/False)
4. We cannot create a subclass of public class. (True/False)
5. All syntax errors are known as Logical errors. (True/False)
6. "Divided an integer by zero" is the example of Compile Time type of error. (True/False)
7. Color.RED is valid parameter to set the background color as red. (True/False)
8. Full form of AWT is _____.

Q.3 Short Questions. (Attempt any 10)

[20]

1. What is JVM (Java Virtual Machine)?
2. Draw the Java program structure.
3. What is meaning of automatic type conversion?
4. Define method overloading.
5. Define method overriding.
6. Define interface. Write the syntax for implementing an interface in a class.
7. Define the terms: try, catch
8. List the java API packages.
9. Explain any two string methods
10. List out methods of MouseListener.
11. Define Event.
12. List down methods for KeyEvent class.

Q.4 Long Answer Questions. (Attempt any 4)

[32]

1. What is Java? Explain the features of Java.
2. List out the decision making and looping statements available in Java. Explain with example.
3. Define inheritance. Describe different forms of inheritance.
4. Describe the various forms of implementing interface. Give an example of JAVA code for each case.
5. Explain Reader stream classes, Character Stream classes and Writer stream classes
6. What is String Methods? List out any five methods of String class by giving an example.
7. Explain Applet life cycle in detail and explain JDBC Components.
8. Write a short note on Label, TextField, List and Button with example.
