(P.T.O)

Q.2 Answer the following questions in short. (Any 10)

- 1) Draw the Java program structure.
- 2) List features of Java.
- 3) Write the syntax of the following loops – while, for loop.
- 4) Define method overriding with example.
- 5) Differentiate between Classes and Interface.
- 6) What is the meaning of the *abstract* keyword?
- 7) Define the terms: try, catch. (with example)
- 8) Define the term – Exception and Exception Handling.
- 9) Give examples of the Run-time error.
- 10) Explain methods (1) setBackground() (2) setForeground().
- 11) Write difference between java applet program and java application program.
- 12) List out methods of MouseListener.

Q.3(A) Explain the data types available in Java.

10

OR

Q.3(A) List out the operators. Explain any three in detail.

10

Q.4(A) What is Inheritance? Explain different forms of Inheritance.

06

(B) What is a constructor? Explain with example.

04

OR

Q.4(A) Write a short note on Interface in Java. (With example)

06

(B) Differentiate between method overloading and method overriding

04

Q.5(A) What is package? What are the benefits of package? Explain Java API packages.

06

(B) Explain Reader stream classes.

04

OR

Q.5(A) List out any five methods of String class by giving an example.

06

(B) Explain Writer stream classes.

04

Q.6(A) What is JDBC? List out JDBC components and types of drivers.

05

(B) Explain Label and Choice with example.

05

OR

Q.6(A) Explain Applet life cycle in detail.

05

(B) Explain TextField and Checkbox with example.
