SARDAR PATEL UNIVERSITY

B.Sc. (CA & IT) Examination, November-2018

M.Sc. IT (INTREGATED) (NC)

Semester – V [CBCS]

PS05CIIT03 - Object Oriented Programming through Java

29th October, 2018, Monday

Time: 2:00 p.m. to 5:00 p.m.

Marks: [70]

Q-1 Multiple Choice Questions.

[10]

1. _____ is one of the inventors of Java.
A. Dannis Ritchie B. James Gosling
C. Bjarne Strastrup D. Balagurusam
2. JVM stands for _____.
A. Java Virtual Method B. Java Virtual Machine
C. Java Variable & Methods D. Java Versatile Machine
3. Java does not support _____.
A. Operator overloading B. Global variable
C. Multiple inheritance D. All of above
4. Which keyword is used in Java to define a constant?
A. Static B. Final
C. Abstract D. Private
5. The subclass constructor uses the _____ keyword to invoke the constructor of the superclass.
A. Super B. Static
C. Final D. Public
6. "Divided an integer by zero" is the example of _____ type of error.
A. Compile-time B. Run-time
C. Exception D. Logical
7. _____ is caused when a conversion between string and number fails.
A. NullPointerException B. IOException
C. NumberFormatException D. SecurityException
8. Which package is used for creating and implementing applets.
A. java.lang B. java.util
C. java.applet D. java.awt
9. In _____ component we can select multiple items.
A. Option Button B. Choice
C. List D. None of these.
10. JDBC application must import _____ package.
A. io B. sql
C. event D. util

Q-2 Answer the following questions in short. (Any 10)

[20]

1. What is JVM ?
2. List out the types of operators used in Java.
3. Write the syntax of any one of the following loops – while, do...while, for loop

(P.T.O.)

4. How can you use ternary operator?
5. Define method overloading
6. Define constructor. How do we invoke constructor in JAVA?
7. What is the meaning of the abstract keyword
8. Define the term - stream, reader stream classes, writer stream classes.
9. List the java API packages.
10. Define the term – Exception and Exception Handling.
11. List out methods of MouseListener
12. Explain types of drivers used in JDBC

Q-3

[A] What is Java? Explain the features of Java. [10]

OR

[A] List out the decision making statements and looping statements available in Java. Explain with example [10]

Q-4

[A] Define Inheritance. How it is created in Java? [06]

[B] Differentiate between Classes and Interface. [04]

OR

[A] Define interface. Write the syntax for implementing an interface in a class. [06]

[B] What are the conditions for using super() method. [04]

Q-5

[A] Write a short note on Character Stream classes. [06]

[B] Explain Reader stream classes and Writer stream classes [04]

OR

[A] What is package? What are the benefits of package? Explain Java API packages [06]

[B] List out any five methods of String class by giving an example. [04]

Q-6

[A] Write short note on following components. [05]

[1] TextField [2] List

[B] Explain Applet life cycle in detail. [05]

OR

[A] Explain types of drivers used in JDBC. [05]

[B] Write short note on following components. [05]
[1] Button [2] Checkbox
