

SARDAR PATEL UNIVERSITY**M. Sc. I. T. (Integrated) Examination, 8th Semester****Friday, 21ST April, 2017****PS08EIT01: Software Testing****Time: 02:00 PM to 04:00 PM****Total Marks: 70****Q:1 Give answers of following Multiple Choice Questions****[08]**

- [01] Static analysis means examination of a number of _____ documents.
(A) problem (B) Analysis
(C) requirements (D) testing
- [02] Software reliability can be estimated via _____.
(A) Software testing (B) Static analysis
(C) Random testing (D) Dynamic analysis
- [03] A _____ is the process under which static white box testing is performed.
(A) peer review (B) Formal review
(C) walkthrough (D) Inspections
- [04] Which of these is not the generic code review error?
(A) Subroutine parameter (B) Control structure
(C) Comparison (D) Input/output
- [05] Software compatibility testing means checking that your software interacts with and shares _____ correctly with other software.
(A) data (B) information
(C) code (D) variables
- [06] Which is not data sharing compatibility?
(A) Edit (B) File save
(C) File export (D) Cut, copy, paste
- [07] _____ are tools to control and operate the software being tested.
(A) Sniffers (B) Viewers
(C) Drivers (D) Stubs
- [08] Which is not the reason for test case planning?
(A) Organization (B) Repeatability
(C) Testing (D) Tracking

- Q:2 Answer the following short questions (any Seven)** [14]
- [01] Define Verification and Validation.
 - [02] Draw cause-and-effect diagram.
 - [03] List out generic code review checklist.
 - [04] Define White - Box Testing.
 - [05] List important traits common to a good UI.
 - [06] Define Software compatibility testing.
 - [07] List categories of test tools.
 - [08] Define: Test Item, Input Specification.
 - [09] Write down the purpose of: Viewers and Drivers

- Q:3**
- [A] Explain software quality in detail. [06]
 - [B] Explain test levels in detail. [06]

OR

- [B] What is the objectives of testing and explain test case. [06]

- Q:4**
- [A] Explain Sub-Boundary conditions. [06]
 - [B] Explain Inspections and Walkthroughs in brief. [06]

OR

- [B] Explain data reference, declaration, and computation errors. [06]

- Q:5**
- [A] Explain isolating configuration bugs. [06]
 - [B] List and explain any two types which make a good UI. [06]

OR

- [B] Explain types of software documentation. [06]

- Q:6**
- [A] Explain benefits of automation and tools. [06]
 - [B] Explain test case configuration and tracking. [06]

OR

- [B] Explain any two bug-tracking systems. [06]
