PS08EIT01: Software Testing

Time: 12:00 PM to 02:00 PM

Total Marks: 70

Note: Answer of all the questions (including Multiple Choice Questions) should be written in the provided answer book only

Q:1 Give answers of following Multiple Choice Questions [10]

- [01] _____ view means quality is viewed as tied to the inherent characteristics.
(A) Manufacturing (B) Product
(C) Value-Based (D) User
- [02] Static analysis means examination of a number of _____ documents.
(A) Problem (B) Analysis
(C) Requirements (D) Testing
- [03] In white box testing software tester has access to the _____.
(A) requirements document (B) design phase
(C) program's code (D) None of these
- [04] The simplest view of software is to divide its world into the data and _____.
(A) the code (B) the program
(C) the data structure (D) the design
- [05] Which criteria that might not go into deciding what programs to choose for testing?
(A) Popularity (B) Usefulness
(C) Type (D) Manufacturer
- [06] Which is not data sharing compatibility?
(A) Edit (B) File save
(C) File export (D) Cut, copy, paste
- [07] Software _____ is a pretty touchy-feely concept.
(A) Comfort (B) Flexibility
(C) Correctness (D) Consistency
- [08] Which of this is not the principal attributes of tools and automation?
(A) Reliability (B) Speed
(C) Efficiency (D) Relentlessness
- [09] Which is not analysis tool?
(A) Compiler (B) Debugger
(C) Stopwatch (D) Camera
- [10] _____ are tools to control and operate the software being tested.
(A) Sniffers (B) Viewers
(C) Stubs (D) Drivers

Q:2 Fill in the Blanks and True-False

[08]

- [01] Verification is a process which carried out before _____ phase.
- [02] Equivalence partitioning also called _____.
- [03] Full form of COM is Component _____
- [04] _____ indicates how bad the bug is.
- [05] Dynamic analysis means examination of actual program execution. (T/F)
- [06] Compilation is the generic code review error. (T/F)
- [07] Clear is important for make good UI. (T/F)
- [08] A Drivers tool allows you to see details of software's operation. (T/F)

Q:3 Answer the following short questions (any Ten)

[20]

- [01] Define: Static analysis and Dynamic analysis
- [02] List out objectives of testing.
- [03] List of testing activities.
- [04] List out categories of quality characteristics.
- [05] List out issues when reviewing competitive products.
- [06] Define: Black-Box testing
- [07] List all essential elements of formal reviews
- [08] List basic items to review product that consistent or not.
- [09] Define Software compatibility testing
- [10] List categories of test tools.
- [11] List the principal attributes of tools and automation.
- [12] Write levels of: Priority

Q:4 Answer the following short questions (any Four)

[32]

- [A] Explain verification and validation method.
- [B] Explain software quality in detail.
- [C] List and explain any two high-level review of the specification in detail.
- [D] Explain formal reviews.
- [E] Explain compatibility testing.
- [F] Explain isolating configuration bugs.
- [G] Explain viewers and monitors, and drivers.
- [H] Explain random testing methods in brief.
