

[A-110]

No. Of Printed Paper: 2

SARDAR PATEL UNIVERSITY

M.Sc. Information Technology (Integrated) Semester 8

Friday, Date: 1st April, 2016

Session: Evening Time : 02:30 P.M. to 5:30 P.M.

Course Code : PS08CHIT02

Course Title : Wireless Communication

Total Marks: 70

Q.1 Multiple Choice Questions :

[08]

1. Mobile computing means : _____
 - a. Moves along
 - b. Virtual Home Environment
 - c. Any time & Any where
 - d. All of the above
2. Web browser is an example of _____.
 - a. User Agent
 - b. User Equipment
 - c. User Device
 - d. All of the above
3. Which one of the following is real time client application?
 - a. Games
 - b. Calendar
 - c. GPRS
 - d. Emails
4. Restaurant finders are an example of _____ applications.
 - a. Job Sheet Dispatch
 - b. Location Based Services.
 - c. Personal information management
 - d. Multimedia Service.
5. Which one of the following is limitation of GPRS?
 - a. Cell capacity is limited.
 - b. Low access speed in reality.
 - c. No support from GPRS mobile Terminate connection from mobile server.
 - d. All of the above
6. Give full form of HLR _____.
 - a. Home Link Register.
 - b. Home Layer Register.
 - c. Home Location Register.
 - d. Home Local Register.
7. Which of the following is **NOT** an example of Terminal resources.
 - a. VDU
 - b. Laptop Screen
 - c. Printer
 - d. Keyboard
8. Display management is responsibility of _____ tier.
 - a. User Interface
 - b. Data
 - c. Process Management
 - d. None of the above.

Q.2 Short Questions. (Attempt any Seven)

[14]

1. Define : Mobile Computing
2. What is scatternet ? How it differs from piconet ?
3. List various spreading techniques.
4. List various 3G specific applications.
5. List categories of client applications of 3G.
6. State different classes of GPRS handsets. Explain any one class in brief.
7. List various types of registers used to store used information in GPRS.
8. State the nature of human interface. What is the sequence of operation from Speech to Radio wave?
9. State various roles of software agents. Explain in brief.

Q3. a Explain various names given to mobile computing. [06]

Q3. b. Write detailed note on Bluetooth. [06]

OR

Q3. b. Write detailed note on RFID. [06]

Q4. a Explain advantages of Wireless LAN in detail. [06]

Q4. b. List types of Wireless LAN. Explain Adhoc versus Infrastructure mode and cell design in Wireless LAN. [06]

OR

Q4. b. Explain Voice Over Internet Protocol in detail. [06]

Q5. a Explain GPRS – Specific application in detail. With examples of each. [06]

Q5. b. Explain GPRS network architecture in detail. [06]

OR

Q5. b. Explain WAP architecture in detail. [06]

Q6. a Explain Three-Tire architecture for mobile computing in detail. [06]

Q6. b. Explain in brief design considerations for mobile computing. [06]

OR

Q6. b. Explain business objectives of GSM , frequency reuse concept and GSM architecture. [06]
