

[139]

SEAT No. _____

No. of Printed Pages: 2

SARDAR PATEL UNIVERSITY
EXTERNAL EXAMINATION (2022)

M.Sc. Information Technology (Integrated) (NC)-Semester 8th

Course Code: PS08CIIT02

Subject: Wireless Communications

Date : 07/04/2022

Total Marks: 70

Time : 12:00 pm to 2:00 pm

Q.1(A) Multiple Choice Questions

[08]

1. _____ uses analog technology.
 (A) 1G (B) 2G
 (C) 3G (D) 4G
2. Which of the following is not common name for Mobile Computing.
 (A) Nomadic computing (B) Unique computing
 (C) Pervasive computing (D) Ubiquitous computing
3. Which of the following is not a Spread Spectrum Technology?
 (A) Frequency Hopping (B) Hybrid System
 (C) Amplitude Hopping (D) Time Hopping
4. Which of the following is an example of online 3G client application.
 (A) Spreadsheet (B) Order Booking
 (C) Calculator (D) Calendar
5. Which of the following is not the type of GPRS Handset?
 (A) Class A (B) Class B
 (C) Class C (D) Class D
6. Which of the following is/are GPRS Bearers.
 (A) SMS (B) WAP
 (C) MMS (D) All of the above
7. Which of the following is first tier of Mobile Computing Architecture.
 (A) Application (B) Presentation
 (C) Data (D) None of the above
8. Which of the following is not part of GSM?
 (A) HLR (B) VLR
 (C) BSC (D) PSC

Q.1(B) Fill in the blanks or True/False

[16]

1. User Equipment is combination of Hardware and _____.
2. _____ Wireless technology is named after Danish king Harald Blatand.
3. Calculator is an example of personal application. **(True/False)**
4. MANET is not an example Wireless LAN. **(True/False)**
5. WAP is designed to access Internet and advanced telephony services from mobile phones. **(True/False)**
6. UA stands for user Agent. **(True/False)**
7. International roaming is not supported by GSM. **(True/False)**
8. Device mobility means user can move from one device to another and use the same service. **(True/False)**
9. Bluetooth is adapted as IEEE 802.6 standard. **(True/False)**
10. Email is not an example of communication application. **(True/False)**
11. Electronic agents are mobile programs that go places in the network to carry out their owner's instructions. **(True/False)**
12. GPRS stands for Global Packet Radio Service. **(True/False)**
13. Application layer is the first layer of WAP protocol stack. **(True/False)**
14. User profile are stored in BSS. **(True/False)**
15. GSM cell is hexagon in shape. **(True/False)**
16. Base Station controller connects BTS and MSC. **(True/False)**

Q - 2 Short answer questions.(Any seven)

[14]

1. List different names given to mobile computing.
2. What is Scatternet and Piconet?
3. List different spread spectrum technology.
4. What are the challenges to design a good wireless adhoc network?
5. What are characteristics of Sensor networks? Where they are used?
6. List GPRS supports nodes.
7. State limitations of GPRS.
8. Draw the cell structure of GSM
9. What is Roaming?

Q.3 Write short note on Bluetooth.

[08]

OR

Q.3 Explain RFID in detail.

[08]

Q.4 Differentiate between CDMA and GSM.

[08]

OR

Q.4 Explain Applications of Wireless LAN. Also state advantages of Wireless LAN.

[08]

Q.5 Explain GPRS network Architecture in detail.

[08]

OR

Q.5 Explain Wireless Application Protocol (WAP) in detail.

[08]

Q.6 Explain Three-Tire Architecture of Mobile Computing in detail.

[08]

OR

Q.6 Explain SMS Architecture in detail.

[08]
